It was an exciting eleventh inning finish with Hines, the new fielder, as the hero, but minus a bunch of infield errors it would have been an easy nine inning victory for the Comets.

De Lair was the hill man for the Comets until the seventh inning, when Oswalt was put in. Auburn tried to checkmate this move by taking out Johnson and putting Hirsch in as heaver.

Hits were plentiful. The outfield redeemed itself from Friday's record and gave the sack to the infielders to hold.

At the beginning of the game the ground rules were changed, after much debating, making a hit over the fence a three-bagger instead of a home run. Of course, Maryville was the only one who stuck any balls over the signs after the change was made.

The Comets' first run came in the second, when Hines, the second man up, drew a pass and scored on Black's hit, which Primley allowed to roll past him in the field. Two more were tacked up in the fourth. Hines singled to left, but was forced out at second on Black's grounder. Griffen flied out to short. DeLair walked and Sackett pounded out a three-bagger over the left field fence, scoring Black and DeLair. Dietz was thrown out from short to first.

Auburn evened up in the fifth. With one down Free singled to left. Walsh watched Kraninger's grounder roll through his legs, and first and second were occupied. Johnson tripled to right scoring two runs, and then hopped over the pan himself on Wintz's error. Dygart found himself on third. L. Bright was hit by DeLair and took second, but was caught napping a moment later. The next man chopped out, leaving the score tied.

In their half the Comets put one more across the plate. Wintz got to second on an error. Bulger beat out a perfect bunt and Wintz landed on third. McBride repeated Bulger's performance, scoring Wintz. Hines struck out. Black flied out to center. Griff walked, filling the bases, but DeLair's fly to right was caught.

Each side scored one more run in the sixth. A three-bagger to right and a single to left did it for Auburn, while a single to center and a three-bagger to center did it for Maryville.

In the seventh the pitchers were changed. In the eighth a single and errors scored one run for Maryville. A single, two-bagger and three-bagger in the ninth brought Auburn's score up even. The tenth was two goose eggs, and Auburn was shut out again in the eleventh. In their half of this inning Wintz and Walsh flied out. McBride went to first on an error. Hines then stepped to the plate and rapped out a homer into deep center, cinching the last of the series.

FOR FOLK OR CLARK

WHICH WILL RECEIVE MISSOURI'S SUPPORT IN 1912?

A MISSOURI PRESIDENT?

The Situation as Seen From Washington Will Require Sacrifice Upon the Part of One.

By VAN CLEVE.

Washington, D. C., May 27.—It is the belief here among Democratic leaders from all parts of the country that the next president of the United States will be a Democrat. Not only is this true, but there are many indications that he will come from Missouri.

The thought of Missouri furnishing a president after all these years may appear as the vision of a dreamer, or the harmless clatter of an unfortunate, but it is neither. The one all prevailing, real and unavoidable thing in the political atmosphere here is the Clark-for-president idea. Although he has not turned a hand or uttered a word in his own behalf, the movement, which began spontaneously, has been taking shape rapidly and there has been a process of elimination going on in the public mind until there are now only three names under serious discussion among Democrats. These are Champ Clark of Missouri, Gov. Woodrow Wilson of New Jersey and Governor Harmon of Ohio.

Six months ago Gov. Harmon seemed to have all others distanced, but as matters now stand he is a bad third in the race. Gov. Wilson's friends are loud and active. They are making large claims, while Clark's lips are sealed as the result of an unfortunate and embarrassing situation.

The most effective argument, and practically the only one, offered against the speaker is being industriously plied by the friends of these other men. It is to the effect that Mr. Clark has no just title to the support of his own state; that it has been deeded and warranted to another distinguished son, and that he can't begin to run without Missouri. As a matter of fact, the Democracy of Missouri is pledged to Ex-Gov. Folk in this presidential matter, and is in honor bound to respect this pledge unless voluntarily released from it. While this is true, it also appears that Mr. Folk's star, which then promised to grow in magnitude and brilliancy, is now well night invisible. Circumstances have brought other men to the front and made Champ Clark the strongest man mentioned.

So here is a proposition that is up to Missouri, and the patriotism of the two men. The issue must be met and met promptly. It is only a year now until the presidential nomination is to be made, and political fortunes will be rapidly determined. The lineups are now being formed. If Missouri is to grasp a great opportunity to go out and win a presidency she must do so while opportunity is still at the door.

Speaker Clark is the man most generally acceptable. He was born in the south, he belongs to the west, he is approved in the east. He has the confidence of the conservative, he is acceptable to Bryan, and even William R. Hearst, before sailing for Europe yesterday, said the nomination of Clark would be the best that the Democrats can make. If Missouri is to become the home of a president she must put her house in order.

* * *

The house is still giving the senate some wholesome lessons in legislative efficiency. They are putting up not only a lot of problems to the senate, but a lot that are making the hair of the standpat leaders stand on end. For the week past certain senators have busied themselves trying to get the house leaders to agree to an early recess, but Champ Clark and his men have laid down the proposition that the senate must take up and dispose of the reciprocity bill and other important bills or prepare to stay right here until the regular session begins in December. They can pass them or defeat them, just as they like, but they must quit dodging and meet the issues presented is the declaration of the house leaders. The old senate oligarchy is squirming furiously, but they are between his satanic majesty and the deep blue sea, and the probabilities are that they will accept the inevitable and "get busy." There are no appropriation bills to take their time at this session, and they can do a great deal, as has been shown in the house, in a very short time if they once make up their minds to it. In the meantime the reactionary Republicans are gnashing their teeth at the president for ever calling this extra session.

WORK KEEPS BOYS OFF THE STREETS

Parents are inclined at times to complain that the Boy Scout activities take up too much of the boys' time. They forget that the boys are having healthy fun, and, secondly, that he is being trained to do something worth while. Reports from scout masters in New York show that the activities furnished by the leaders of the Boy Scout movement are so absorbing to many boys that they are taken off the streets. Those boys in winter time are interested in the meetings of their various patrols or are making systematic tramps through the parks or into the woods. They no longer are loafing in billiard parlors or among boys that tend to exercise a harmful influence over them.

Left for Chicago.

Miss Lillian Lindholm of the high school faculty left Monday for Mt. Vernon, Ia., to visit a few days with her old school friend, Miss Edith Gurney, who is private secretary to President Harlan of Cornell college. Miss Katharine Gex and her cousin, Oscar Siebert, spent Saturday in Maryville.

Memorial Day Flowers

The beautiful custom of honoring those who laid down their lives in sacrifice to the principles for which they fought, and showing a tribute to our loved ones who have died, by covering their graves with flowers at least once a year is one of the most inspiring and poetic breaks in the busy life of our country and it is a credit that Memorial Day is observed with increasing interest each year. The proper observance of the day requires right kind of flowers—such flowers as we have in profusion, loose and in wreaths etc.

MEXICAN REVOLT COSTS $20,000,000

President De La Barra Will Dissolve Rebel Forces.

Mexico City, May 29.—Measures for the ultimate disposition of the insurrecto army and for the payment of the costs of the war were the first matters to which the newly created executive devoted his official attention.

President de la Barra proposes to dissolve at once the revolutionary forces, using a portion of them to augment the ranks of the rurales, organized by General Diaz. The remainder will be given assistance to get employment or to return to their homes and will be paid off as though having been mustered out of the regular army.

President de la Barra is considering a measure for immediate protection of all claims made and proved against the government. It is proposed that a committee of five be named to pass on all private claims as soon as they are presented by those properly qualified. A clause will authorize the payment of such claims as are approved.

Diplomats estimate the war has cost not less than $20,000,000 gold and that perhaps one-tenth of this is due to damages sustained by foreigners. Half of this amount is said on high authority to be due to losses by Americans.

Madero Aids Newspaper.

Juarez, Mex., May 29.—On representations made to him that efforts were being exerted to suppress the publication of El Pais, a newspaper in Mexico City, Madero sent an urgent telegram to President de la Barra, saying hereafter he would oppose any limitation of the freedom of the press in Mexico. Under the new regime, he said, the press of Mexico must be untrammeled.

Bolt Kills Man and Horse.

Marceline, Mo., May 29.—In a light shower of rain lightning struck and killed Anthony Eligman, a young farmer, and one of his plow horses.

TORNADO KILLS TWO IN ILLINOIS

Storm Strikes Peking and Causes Great Damage to Property.

ROOFS BLOWN FROM HOUSES.

Tornado Follows River and Residence Part of City Escapes—Wire Communication is Demolished—Twenty Injured When Grandstand Falls.

Peoria, Ill., May 29.—A tornado struck Peking, ten miles south of this city, killing two people and causing property damage that will amount to thousands. The dead are two boys, Clyde Sakers and Frank Wooley.

The storm came from the southwest. The pumping station on the opposite bank of the Illinois river was first to feel the effects of the storm and was completely destroyed. The storm then jumped across the river and the plants of the Boley Ice company were completely destroyed.

Trees were uprooted, roofs blown from houses and plate glass windows smashed in the business section of Peking. The storm followed the river and the residence part of the city escaped. Wire communication of all kinds is completely demolished.

GRANDSTAND COLLAPSES

High Wind Topples It Over Upon Crowd of Players Seeking Refuge.

Granite City, Ill., May 29.—Twenty spectators at a baseball game were more or less seriously injured when the grandstand collapsed under a heavy wind.

Sidney Mangus, twenty-two years of age, of Granite City was the most seriously injured, receiving a broken leg and internal hurts. It is said he will die. Twelve of the twenty persons injured were baseball players.

Most of the spectators fled at the approach of the storm. The grandstand was picked up bodily by the storm and hurled upon a crowd of players, who huddled behind it, seeking refuge from a bombardment of hail.

Storm Strikes St. Louis.

St. Louis, May 29.—A storm which almost attained the dimensions of a tornado in parts of this city wrought considerable damage to residences and in the parks. A physician, Dr. J. J. Meredith, who sought shelter under a tree during the height of the storm in the west end, was denuded by a bolt of lightning, though he was unhurt.

TOBACCO CASE RULING READY

Decision by United States Supreme Court Is Expected Today.

Washington, May 29.—The United States supreme court is expected to hand down today a decision in the tobacco trust case favorable to the government.

In the judgment of officials of the department of justice, this decision is forecasted by the action of the court in the Standard Oil case. It is expected the court will make clearer its views as to what it meant by "unreasonable" restraint of trade and "rule of reason."

It has been reported for some days that the court reached its decision with respect to the tobacco trust at the time it decided the Standard Oil case, but deemed it expedient not to hand down the two decisions at once. It realized it was writing into law a policy which would give rise to some question, and that it would be wise to interpret that policy in a subsequent opinion.

Both cars turned turtle at the same point, but they were going in opposite directions. Robert W. Bean, aged twenty-four, whose home was in Detroit, was crushed to death beneath the car.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair.

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is unnatural, and indicates that there is something wrong with the individual, and that nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. If everything is right with Nature, the hair, even in comparatively elderly people, should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature in restoring and preserving the hair is Wyeth's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff, but strengthens weak, thin and falling hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

DIAZ NOW ON BOARD STEAMER

Dictator for Thirty Years Secretly Leaves Capital.

DE LA BARRA TAKES THE OATH

Provisional President of Mexico is Sworn In and Takes Charge of Affairs—Rascon Is New War Minister. Business is Resumed at Mexico City.

Mexico City, May 27.—Private telegrams received here report the arrival of General Diaz at Vera Cruz.

According to these advices he boarded the Ypirranga, a Hamburg-American boat, due to sail south to Coatzacoas today. It will return to Vera Cruz and sail for Europe Wednesday.

Railroad reports received say the pilot train was stopped by insurrectos below Jalapa, but after learning it was serving as a pilot to the Diaz train it was permitted to proceed. None of the three trains suffered other delay.

Diaz secretly left here at 2 a. m. He was bound for Vera Cruz to take ship for Spain.

Francisco Leon de la Barra, the Mexican foreign minister and former ambassador at Washington, took the oath of office as provisional president of the republic. He will act as the chief executive in succession to Porfirio Diaz until a general election can be held.

Senor de la Barra was escorted from the national palace to the chamber of deputies, where the oath of office was administered, by the members of the staff of former President Diaz. The staff officials had resigned days ago, but had asked permission to escort the provisional president to the scene of his inauguration. The new chief executive was accompanied by General E. Rascon, who took the oath as minister of war earlier in the day.

Most of the distinguished personages in the capital were present, including the diplomatic corps in full regalia, headed by the American ambassador, Henry Lane Wilson, the dean of the corps.

Business Is Resumed.

Owing to the fact that Mexico City was orderly throughout the night, despite the magnitude of the crowd which celebrated the change in administration, business men prepared to resume their occupations on a normal basis.

Shutters were removed from the windows for the first time in two days and the morning sunlight, like a good omen, cast its rays through the open facings of the buildings, brightening considerably the appearance of the business district. A large crowd gathered about the chamber of deputies, cheering for Senor de la Barra and General Madero, while the oath was being administered.

It is now regarded as certain that Alfred Robles Dominguez, General Madero's representative here and who is virtually the military commander of the federal district, will not find it necessary to call in the revolutionary forces from the cities of Cuernavaca and Pachuca for the purpose of maintaining order. The police and soldiers are acting under the direction of Senor Dominguez with as much readiness as if they had never known another superior.

Miss Mabel Gay spent Sunday near Barnard with her sister, Mrs. John Richardson.

Mrs. J. C. Dutton went to St. Joseph Saturday evening for a two weeks' visit with her daughter, Mrs. George C. Toel.

Miss Lulu Hughes of Hopkins and Miss Lois Stewart of Parnell arrived Monday to attend the summer term of the Normal school.

Misses Stella and Mabel Mason went to Grant City Monday to visit relatives.

Bad at night when bedtime comes,
Just as bad in the morning.
Ever try Doan's Kidney Pills for it?
Know they cure backache—cure every kidney ill?

If you don't, some Maryville people do.

Read a case of it:

J. A. Murphy, East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney and bladder trouble. In the morning upon arising my back was weak and stiff and there was a dull ache in my loins which at times handicapped me in doin gmy work. Whenever I caught cold it settled in my kidneys, and at such times the kidney secretions became unnatural. I was run down in health when I read about Doan's Kidney Pills and procured a supply at Charles A. Love's drug store. Soon after beginning their use I found relief, and I am now free from kidney trouble. I occasionally take a few doses of Doan's Kidney Pills, finding that they serve to keep my kidneys in a normal condition."

INSIDE HISTORY OF STEEL TRUST

John W. Gates Tells Story of Its Formation.

CARNEGIE BULL IN CHINA SHOP

Big Concern Came Into Existence Because Morgan Feared Ironmaster Would Invade Rail Business—House Committee Hears Story.

Washington, May 29.—John W. Gates told the house steel trust investigating committee the history of the United States Steel corporation. Present at its birth he described how it was the natural outcome of what he termed the refusal of Andrew Carnegie to be bound by the "gentlemen's agreements," that marked the early days of open competition in the steel business.

He also told of the millions lost and created almost in a breath; how the Carnegie mills appraised at $160,000,000 were recognized as worth $320,000,000 almost within the time required to make the transfer to the corporation; the clash in the formative days when John D. Rockefeller was dissuaded from joining in the creation of the corporation and the manner in which others were prevented from engaging in the steel trade.

To Eliminate Competition.

Relating how Carnegie had been forced to abandon plans for extending his steel business, Gates frankly admitted the combination was formed to throttle competition.

Characterizing Carnegie as "a bull in a china shop," Gates told of a midnight conference between himself, Charles M. Schwab and J. P. Morgan, at which the steel corporation was conceived and how it resulted in Carnegie getting $320,000,000 in the corporation's securities for his steel interests which he previously had offered for $160,000,000 in cash.

Gates also told the committee of the taking over of the Tennessee Coal and Iron company by the United States Steel corporation in the panic of 1907, a deal in which he was interested as a stockholder of the Tennessee company.

This, he said, was a forced transaction carried out by Morgan and other financial leaders to save the Trust Company of America, threatened in the financial upheaval because it had lent too much money on stock of the Tennessee company.

Alarmed at Carnegie's Plans.

Plans made by Carnegie in 1899 and 1900 to circle his steel interests with a railroad of his own and to compete with the National Tube company, organized by Morgan, by the erection of a tube works at Ashtabula, O., were factors that led to the birth of the steel combine.

Gates revealed how Morgan, alarmed by Carnegie's plans, had sought the advice of himself and James J. Hill; how Charles M. Schwab, who, he said, was the only man who had influence with Carnegie, was called in to suggest a way to "stop Carnegie" and how the pioneer steel king was curbed, though greatly to his financial gain.

He explained that the steel business was threatened with several demoralizing forces when Carnegie's plans became known and that Morgan and others became alarmed, fearing that Carnegie would demoralize both railroad interests and steel prices.

An All Night Session at Morgan's.

This was the situation as described by Gates, himself a director in the Republic Iron and Steel company, when Morgan sent word to him through James J. Hill seeking a conference to determine what could be done. Gates said he told Morgan that Schwab was the one man who could influence Carnegie. Out of that came an all night conference at Morgan's new York home, the outcome of which was the United States Steel corporation.

Rockefeller's name came up in the hearing when Gates was describing Carnegie's desire to branch out after the organization of the National Tube company.

"John D. Rockefeller," he said, "once started a steel mill and threatened to put us out of business. That did not last long. A deal was made whereby Rockefeller's steel interests were bought out at forty cents on the dollar."

ACCIDENT ON POTOMAC

Flagship Dolphin Carrying Miss Helen Taft Runs Down Power Boat.

Washington, May 29.—While returning to Washington from a trip down the Potomac river, with Miss Helen Taft and a party of young women, chaperoned by Mrs. George Von L. Meyer, wife of the secretary of the navy, the secretary's flagship Dolphin ran down and sank at Alexandria the power boat Culprit Fay, containing three men. Alexander Yellowless of this city, one of the three, could not be found when the Dolphin's boat rescued the other two, although an hour was spent in search.

Another Big Fire at Dubuque.

Dubuque, Ia., May 29.—Three men are under arrest on suspicion of knowing something about a second incendiary fire that caused $250,000 damage to the Standard Lumber company and destroyed other property worth $60,000.

URGE EARLY VOTE ON RECIPROCITY

Strength Test Soon to Be Made in Senate on Treaty.

OPPONENTS WORK FOR RECESS

Middle of June Fixed as Date, but Scheme Is Looked Upon as a Plan to Defeat the Bill—Wool and Cotton in House.

Washington, May 29.—Friends of reciprocity in the senate are now concentrating their forces upon an attempt to secure an early test on the Canadian agreement. During the last three or four days they have made a careful investigation for the purpose of seeing precisely what it is that stands in the way of reaching some satisfactory conclusion. They have requested that the finance committee shall take action for the purpose of reporting the agreement not later than Monday next, and they have urged that as soon as the committee has acted the senate shall begin meeting at 10 o'clock, as heretofore, continuing its sessions throughout the day and meeting every day until it gets through the work.

The opponents of the treaty are working for a recess. They urge that there is really no reason whatever why congress should act before the Canadians vote. On the strength of this it is recommended that the first of September or of October would be a very good date to reassemble after taking a recess June 15, or at some time during the two weeks following that date.

Of course, in Canada the same argument was used—that congress was not likely to act on reciprocity for a good while and that therefore it would answer every purpose if an adjournment was taken until late in the summer.

Opposes Adjournment.

Underwood, chairman of the ways and means committee, however, early stated he would not consent to an adjournment until he was informed that the senate would vote prior to such adjournment at least on reciprocity, and possibly also on the free list measures.

Now this group has been joined by the administration men in the senate, who have become convinced that the recess scheme is merely a plan to bring about delay with a view to defeating the bill.

Senator Crane (Mass.) has explicitly said that the recess proposed will not be assented to until a vote has been had on reciprocity.

The hopeful plan of defeating reciprocity by delay having been put practically out of the question, the senatorial leaders have been thrown back upon the plan of defeating the idea by means of amendments.

House to Take Up Tariff.

With the enactment of the statehood bill the house came to a pause in the progress it has been making in carrying through the program for the session which was approved by the Democratic caucus. However, announcement was made on the authority of the Democratic leaders that the next item, a revision downward of the tariff duties on wool and wool manufactures, would be ready for submission to the Democratic caucus about June 5.

The house will mark time until the Democratic majority has approved or amended the wool revision bill.

Following the wool revision bill in the house will come a cotton revision measure. When these two bills have passed, the house will be ready to adjourn.

While the senate took no decisive step on legislation last week, it has made progress in that it has determined to reopen the Lorimer case and make another investigation of the corruptions and bribery which attended the election of the sitting member from Illinois. The present confident belief and prediction is that this time Lorimer will be unseated.

PLAN YEAR'S TEST FOR HENS

Spokane Arranging First American Egg Laying Congress.

Spokane, Wash., May 29.—Problems of continent-wide interest are to be solved at the first American egg laying congress in Spokane, beginning next November and continuing twelve months. It is free and open to the world. Plans are to have at least two every state and territory in the Union entries of six chickens each from and province in Canada. Among other things this information is sought:

Will 300 chickens support an average family?

What breeds are best for commercial eggs?

What is the actual cost of producing eggs?

What are the prime requisites for successful egg culture?

What state, province or territory produces the best layers?

In Memory of Confederate Dead.

New York, May 29.—The New York camp of confederate veterans held the annual service in memory of the southern soldiers who are buried in Mount Hope cemetery. The exercises were held in the plot owned by the camp, where a shaft of granite, given by the late Broadway Rouss, marks the graves of the southern soldiers who have died in New York.

Good News for Catarrh Sufferers.

So many hundreds of catarrh victims who have taken the Hyomei treatment, have written us letters thanking us for publishing our method of taking the Hyomei vapor treatment in connection with the inhaler that we gladly publish it again.

The vapor treatment is especially recommended in stubborn cases of chronic catarrh of long standing, but remember that the inhaler should be used daily as usual.

This treatment only takes five minutes' time before going to bed. Pour a teaspoonful of Hyomei into a bowl of boiling water, cover head and bowl with towel and breathe for several minutes the vapor that arises.

You will be surprised at the result of this treatment; it makes the head feel fine and clear; you will sleep better, and that stuffed up feeling in the head will gradually disappear.

This method will break up the worst cold in the head in one night.

A bottle of Hyomei costs 50 cents at the Orear-Henry Drug Co., who guarantee it. Complete outfit, which includes the little pocket inhaler, costs $1.00.

No stomach dosing; just breathe Hyomei and cure catarrh and all diseases of the breathing organs. Free trial bottle by addressing Booth's Hyomei Co., Buffalo, N. Y.
